FOREWORD

The National Curriculum Framework (NCF), 2005, recommends that children's life at school must be linked to their life outside the school. This principle marks a departure from the legacy of bookish learning which continues to shape our system and causes a gap between the school, home and community. The syllabi and textbooks developed on the basis of NCF signify an attempt to implement this basic idea. They also attempt to discourage rote learning and the maintenance of sharp boundaries between different subject areas. We hope these measures will take us significantly further in the direction of a child-centred system of education outlined in the National Policy on Education (1986).

The success of this effort depends on the steps that school principals and teachers will take to encourage children to reflect on their own learning and to pursue imaginative activities and questions. We must recognise that given space, time and freedom, children generate new knowledge by engaging with the information passed on to them by adults. Treating the prescribed textbook as the sole basis of examination is one of the key reasons why other resources and sites of learning are ignored. Inculcating creativity and initiative is possible if we perceive and treat children as participants in learning, not as receivers of a fixed body of knowledge.

These aims imply considerable change in school routines and mode of functioning. Flexibility in the daily time-table is as necessary as rigour in implementing the annual calendar so that the required number of teaching days are actually devoted to teaching. The methods used for teaching and evaluation will also determine how effective this textbook proves for making children's life at school a happy experience, rather than a source of stress or boredom. Syllabus designers have tried to address the problem of curricular burden by restructuring and reorienting knowledge at different stages with greater consideration for child psychology and the time available for teaching. The textbook attempts to enhance this endeavour by giving higher priority and space to opportunities for contemplation and wondering, discussion in small groups, and activities requiring hands-on experience.

National Council of Educational Research and Training (NCERT) appreciates the hard work done by the Textbook Development Committee responsible for this book. We wish to thank the Chairperson of the Advisory Committee, Professor Anita Rampal and the Chief Advisor for this book, Professor Amitabha Mukherjee for guiding the work of this committee. Several teachers contributed to the development of this textbook; we are grateful to their principals for making this possible. We are indebted to the institutions and organisations which have generously permitted us to draw upon their resources, material and personnel. We are especially grateful to the members of the National Monitoring Committee, appointed by the Department of Secondary and Higher Education, Ministry of Human Resource Development under the Chairpersonship of Professor Mrinal Miri and Professor G.P. Deshpande, for their valuable time and contribution. As an organisation committed to the systemic reform and continuous improvement in the quality of its products, NCERT welcomes comments and suggestions which will enable us to undertake further revision and refinement.

ACKNOWLEDGEMENTS

National Council of Educational Research and Training (NCERT) thanks the following persons and institutions for their contribution towards this textbook. Special thanks are due to the Centre for Science Education and Communication (CSEC), Delhi University, for providing academic support and hosting all the textbook development workshops. The teams were fully supported by the staff, who put in tremendous effort through long working hours even on holidays.

The Council gratefully acknowledges the contributions of Sandeep Mishra for the voluntary technical support and of Sadiq Saeed (*DTP Operator*), Pratul Kumar Vasistha (*Copy Editor*), Binod Kumar Jena (*Proof Reader*) and Shakamber Dutt (*Computer Station Incharge*) in shaping this book.

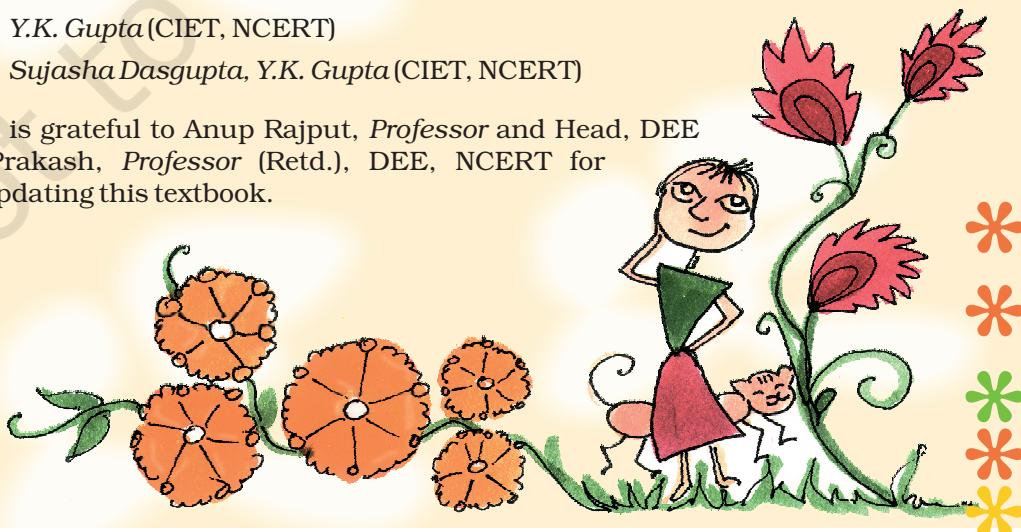

This book has drawn upon ideas from existing materials such as *Kunnimani* — Mathematics Textbooks for Class III & IV (developed by DPEP, Kerala for the Government of Kerala, 1997). The Council acknowledges the support of the *Chakmak* team at Eklavya, Bhopal for the children's drawings.

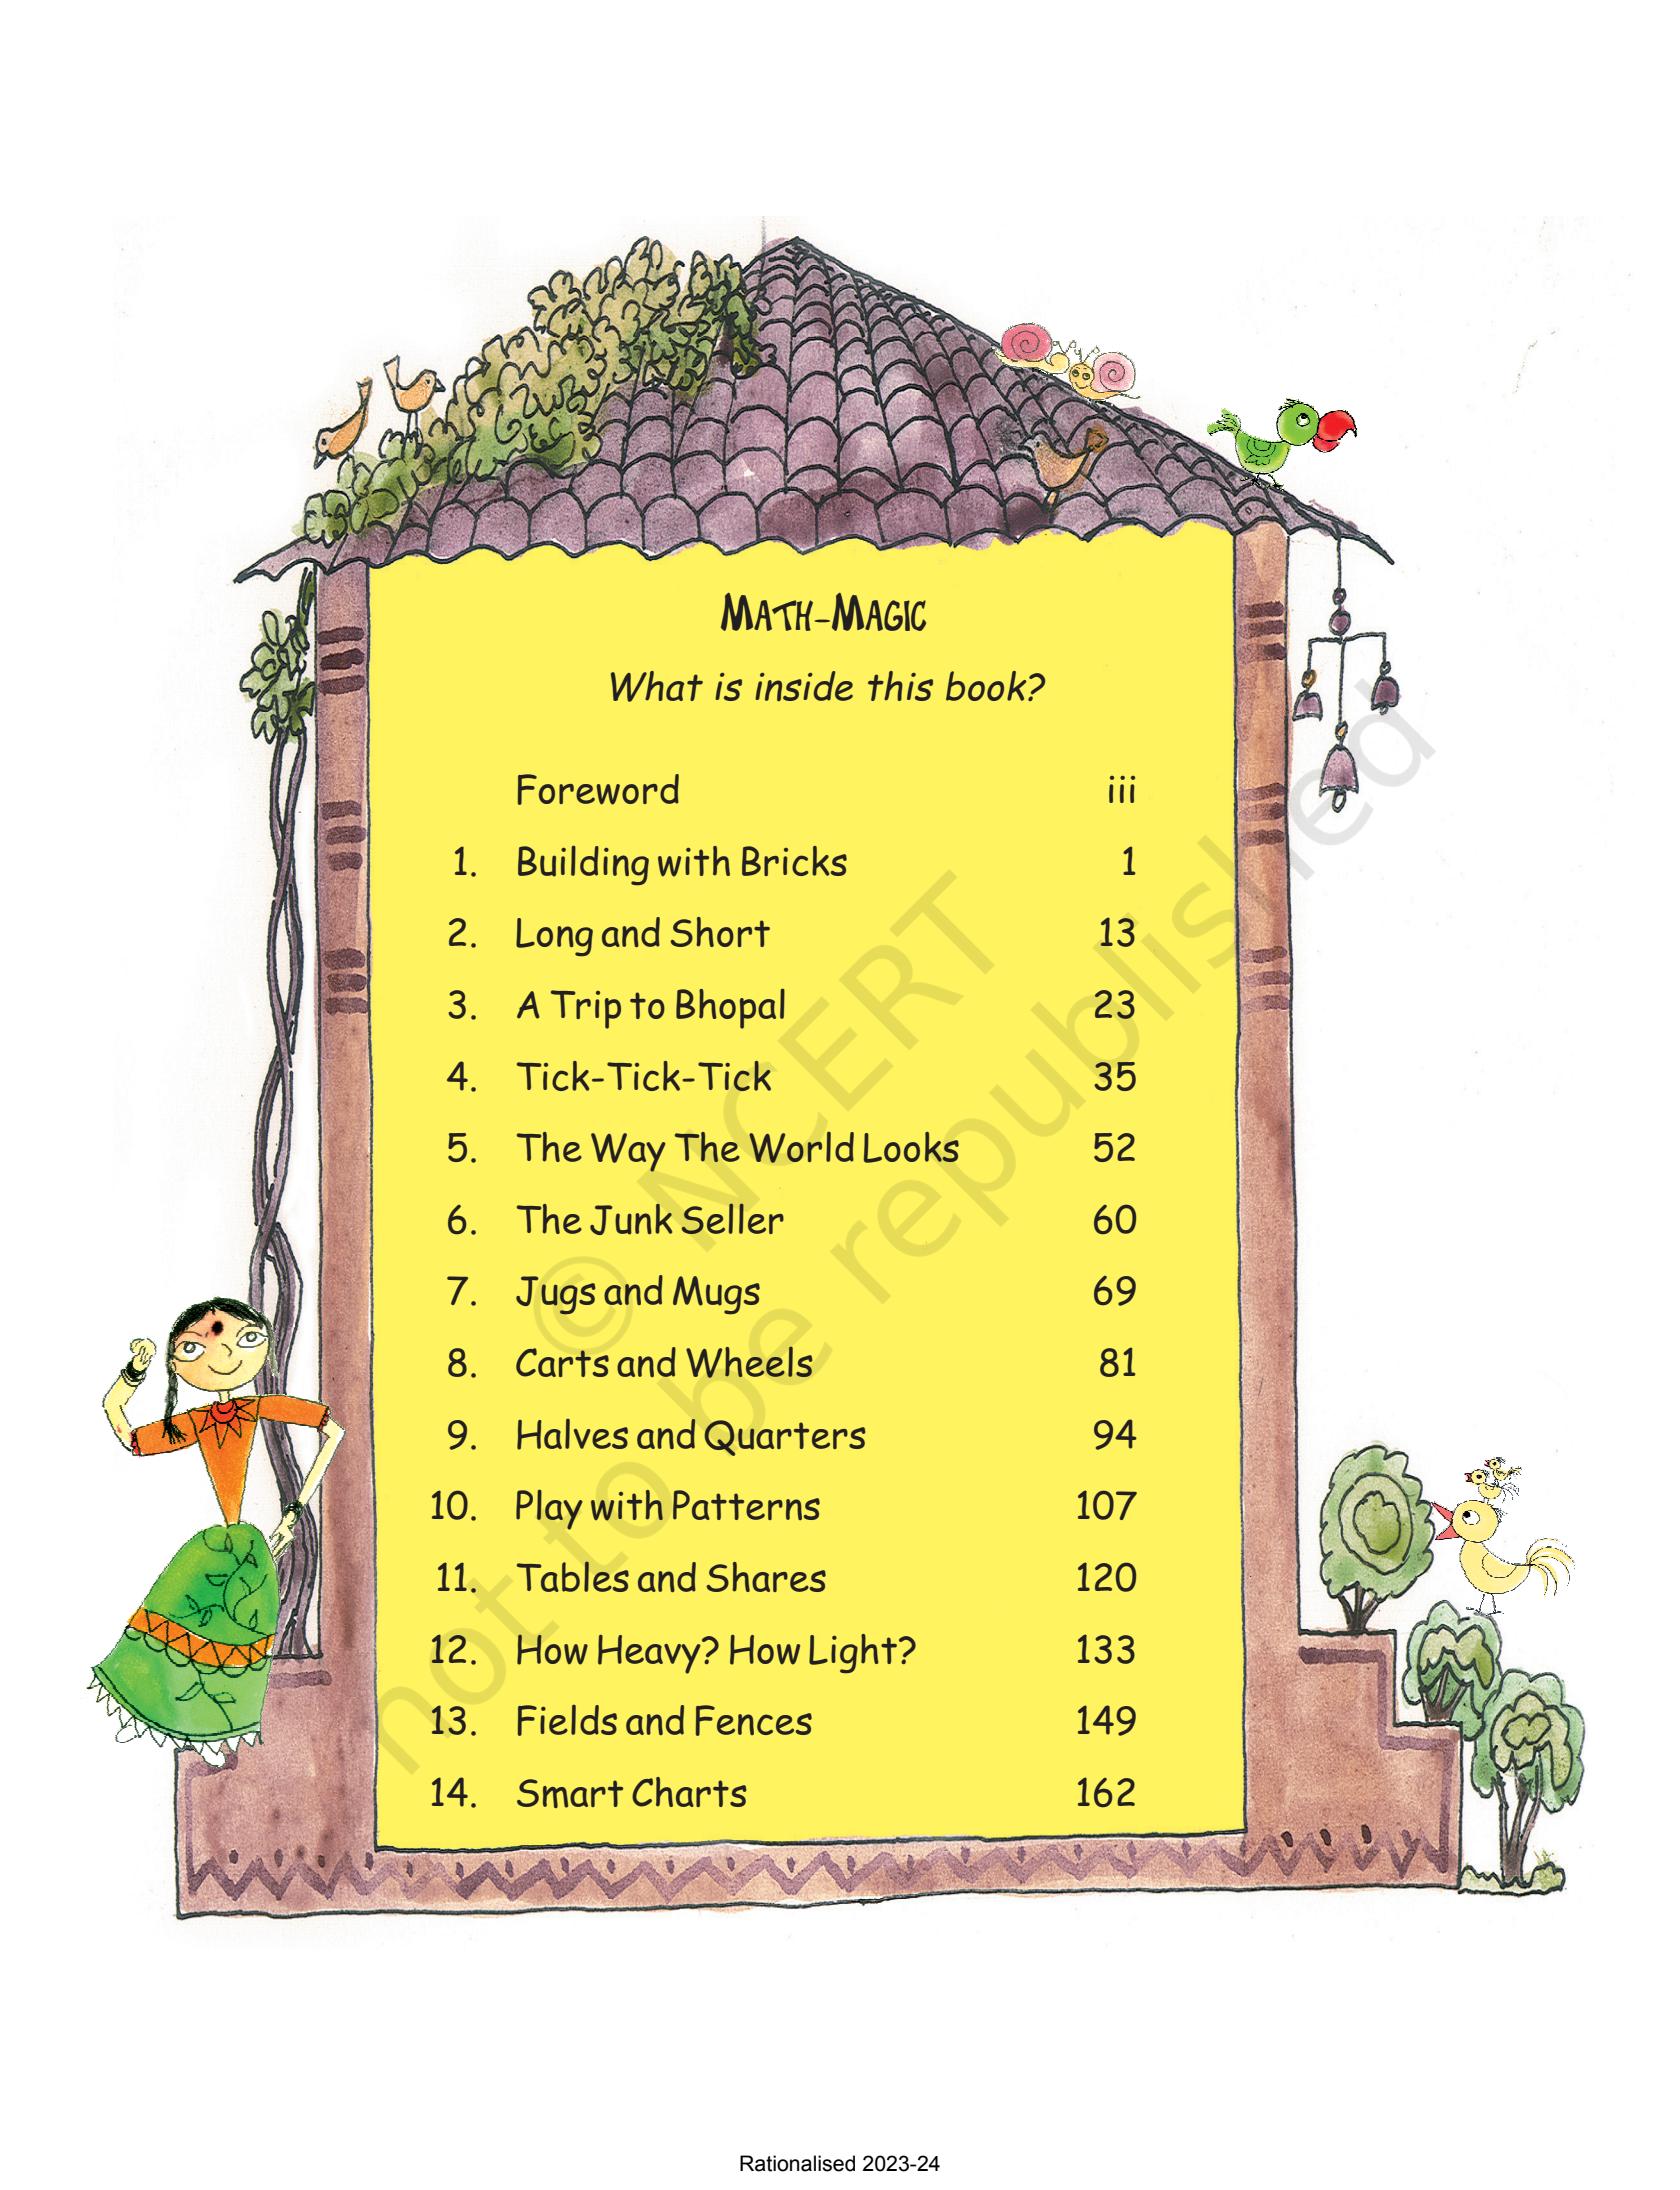

The Council also acknowledges the following teachers — P.K. Abdul Lathif and Cheggareddy F. C., Indira Ramesh, Sandhya Kumar — for participating in discussions and some book development workshops. The support offered by K.K. Vashishtha, *Head*, Department of Elementary Education, NCERT is also gratefully acknowledged.

The Council gratefully acknowledges the photographs taken by the following:

- Chapter 1* — Anita Rampal, Gulab, Kabir Vajpeyi, Jugnu Ramaswamy, Y.K. Gupta, Seema K.K. The contribution of *Vinyas Centre for Architectural Research & Design*, New Delhi and *Jagriti Public School*, Murshidabad, W.B. is also acknowledged.
- Chapter 2* — Y.K. Gupta (CIET, NCERT)
- Chapter 3* — Mahesh Basedia, Sanchari Biswas, A.B. Saxena. Thanks are also due to *Eklavya*, Bhopal.
- Chapter 4* — Swati Gupta
